CHICAGO, ILLINOIS, U. S. A.

Russian Liquid Colors,

FOR COLORING

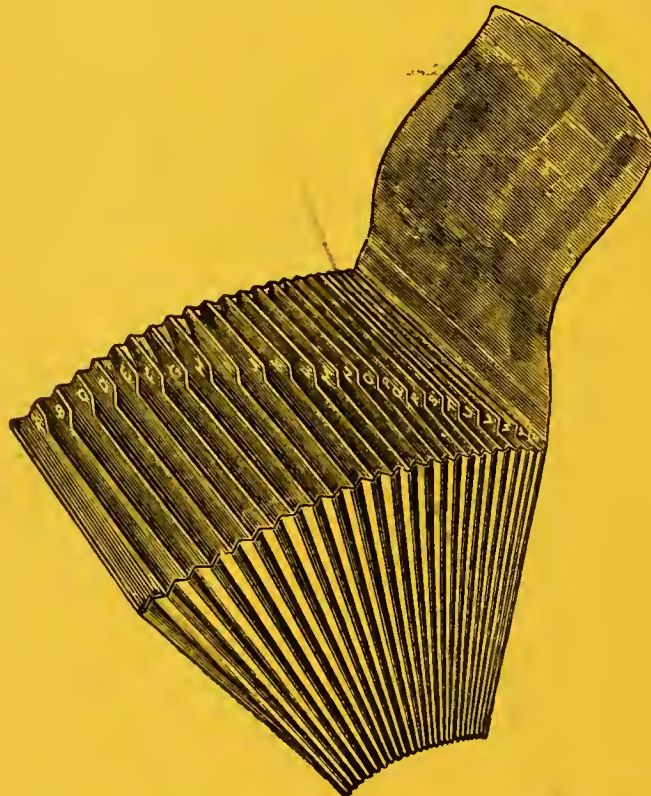

Photographs, Cabinets, Etc.

The "Russian Art" is all the rage just now, and with Russian colors any novice can, at the first attempt, by following directions, produce the most beautiful flesh tints and coloring on photograph prints of any description, without removing the lustre or injury to the surface. Nothing in the line of painting can at all compare with the pictures produced by this process.

Price per box of eight colors.....\$1 50

LETTER FILES.

WILL HOLD 3,000 LETTERS, ARRANGED ALPHABETICALLY.

DOES NOT REQUIRE SEWING, PASTING, FOLDING, CLIPPING OR INDORSING.

Postal Cards can be filed with the Letters, thus saving time and avoiding the use of two Files.

All business men who have used files in which the letters have to be SEWED, know the inconvenience they have experienced by a portion of the letters being sewed in the file, making it impossible to read; or if a letter is written on both sides, or it is to be sent to an attorney or taken out for any purpose, it has to be TORN OUT, which LEAVES A PART TORN IN THE FILE, and after it has been torn out it cannot be sewed back again. PIGEON-HOLE FILING, in which letters have to be folded and indorsed, is a source of even more annoyance both in filing and reference. This File does away with all these inconveniences, and RECOMMENDS ITSELF. It is made of the very best flour sack paper with heavy tag board covers.

A detailed cross-sectional illustration of a mechanical component, likely a valve or piston, showing its internal structure and the flow of fluid or gas through a series of curved passages. The component is shown in a perspective view, with a curved, ribbed surface on the right side and a series of parallel, curved lines indicating internal channels or flow paths. The drawing is rendered in a hatched, engraved style typical of technical illustrations from the early 20th century.

The foregoing thirty pages, it will be noticed, exhibit an unusually great variety of both cheap and fine mouldings, any of which will be made in frames to order.

To those dealers who have not yet handled our line of Mouldings, we would call especial attention to the importance of doing so now, as they will be found far superior in finish and quality to those sold elsewhere at our quotations.

PICTURE FRAMES.

CAUTION.

Many unscrupulous dealers have been accustomed to resort to the mischievous practice of imitating our styles and patterns in square frames, and the close similarity their published illustrations bear to ours is often well calculated to deceive.

From the fact that we strictly adhere to our established rule never to furnish these goods to local jobbers, it is very evident that the genuine and standard articles appearing in this catalogue, designed and manufactured exclusively by *Geo. N. Lee & Co.*, can be had of no one else. A word to the wise is sufficient.

PAT'D
FEB. 18-79.

THE NEW IMPROVED Spilker Adjustable Joint Cutter and Planer. MOST COMPLETE MITER MACHINE IN USE.

Unequaled for capacity, and insuring the most perfect miters with the least amount of labor. Saves time and molding, and does not require a skilled person to operate.

DESCRIPTION.

A, is a general view of the machine. B, the bench to fasten on. C, back rest, movable, with lever A attached, which enables the operator to sever the molding in one or more cuts. See H, with portion cut out. D, is a graduated rule to measure sight rabbit or outside of frame. E, stop for lengths. F, an automatic steel spring catch for holding the large lever G. J, two joints ready to be nailed.

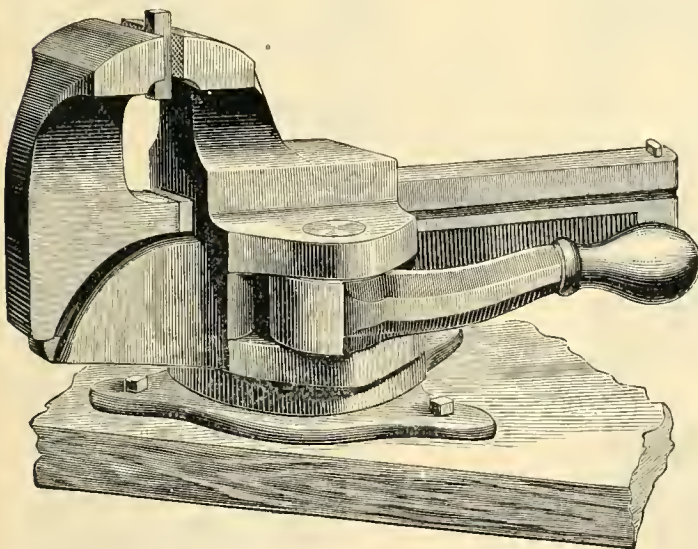

The above joint Cutter, now in use by many of the leading manufacturers and retail dealers in the United States, has given universal satisfaction, and has induced many hundreds now using them to make frames and cut miters who would not attempt it with the many other appliances.

It will be to your interest to purchase none but the best, as it is the cheapest in the end. This machine has proven, during past years, to excel anything heretofore used for cutting and planing miters.

ADVANTAGES.

1. It cuts both joints at once; does not break rabbits; has a shearing cut; requires no setting, and is always ready for use. With improved rule for measuring no time is lost.
2. Being strong, powerful, and constructed from the best iron and steel, all the working parts, surfaces, etc., are planed true. Does the work when the directions are followed, with ease, neatness and dispatch, and does not easily get out of order.
3. With Angle Attachment parts of odd work can be readily cut.

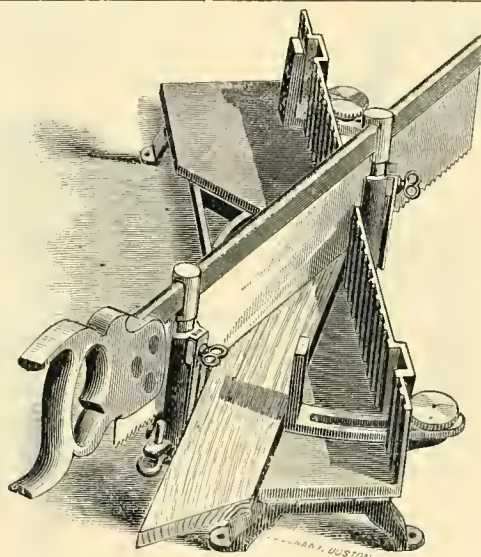

Weight, 85 Pounds. Price, \$36.00.

RUBY'S ROYAL GILDING.

Rich as Gold Leaf.

Ready for Instant Use. {Brush Inside.
Directions Inside.

This preparation ranks next to William's Liquid Gold in the richness of its effect on articles of *Metal, Wood, Pottery, Paper, Leather or Plaster*. It is used with splendid effect for Fresco and Decorative Painting, Fine House Painting, Gilding, Parlor and other Furniture and Household Ornaments, Artificial Flowers and Millinery Articles, Ornamental Candles and all kinds of Wax Works, Fancy Baskets, Frames, and every variety of Wood Work, Metallic Ornaments, Albums, Stationery, and all kinds of Paper Work, Dancing Shoes and all kinds of Leather Work, Repairing Gold Frames and all other Gilded Work.

RUBY'S ROYAL GILDING is very easily applied with a brush, and may be used by the most inexperienced. It dries hard in a few minutes, and presents a surface of rich hammered gold.

Price, per bottle.....\$0 50
" " dozen bottles.....5 75

OBSERVE.—In extreme cold weather the ROYAL GILDING sometimes becomes chilled, but upon being gently warmed it is at once ready for use. When using, shake the bottle until the contents are thoroughly mixed. Keep the bottle tightly corked when not in use.

STERLING POLISH SUPERIOR.

The best Polish known for use on Furniture, Pianos, Organs, Burial Cases, Picture Frames, Billiard Tables, Sewing Machines, and all wood work finished with Oil or Varnish. This Polish is also unrivaled for removing dirt and fly-specks from all kinds of Marble Work, Statues, Mantels, Tables, etc., etc.

TESTIMONIALS.

MILWAUKEE, WIS., July 29th, 1880.

DEAR SIR:—Please send us at once, five gallons Sterling Polish Superior; six dozen Sterling Polish Superior, put up the size bottles you now use, three dozen of them to be with paper boxes. We have given the Polish a good trial, having used it in our store since June, 1879, and consider it the best Polish we ever saw.

Respectfully,

MATTHEWS BROS. FURNITURE CO.

GRAND RAPIDS, MICH., Jan. 12th, 1880.

DEAR SIR:—Your Sterling Polish Superior has been well tested by us. It cleans and renews furniture easily, restoring perfectly to original finish, Polish, Oil, or Varnish rubbed surface. We find it a most desirable article. Our use and sale of it has been entirely satisfactory. Confident that during spring trade there will be a good demand for the Polish, you may ship us at once twelve dozen six oz. bottles, packed same as October order, also four dozen sixteen oz. bottles.

Respectfully yours,

NELSON, MATTER & CO.

"The Gardner Ladder."

(Patent applied for.)

Acknowledged the Best Ladder in Use.

The chief fault in the construction of Step Ladders heretofore has been in the use of castings which would break or become loose by use.

We are pleased to announce that the "Gardner Ladder" enables us to do entirely away with all castings, producing a Step Ladder far superior to any other in the market.

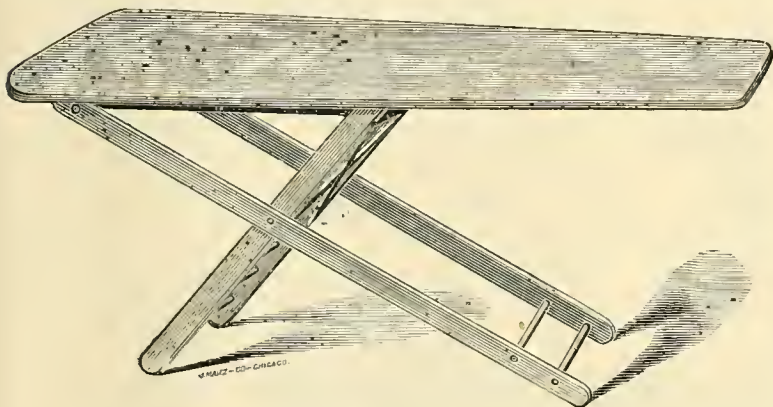

The improvement consists in a "Wrought Iron" Bracket, to which is RIVETED both the stile and back leg, and so adjusted as to produce a combination of strength and durability; also prevents the Ladder from spreading only just so far when open—doing away with the necessity of strings or braces.

We also make an Extension Shelf, a valuable addition in all departments of work where a Ladder is used, especial care being taken to produce a ladder that will stand constant service.

The cut shows the Ladder with an Extension Shelf. The price quoted is without Shelf.

**Folding Ironing Board.**

Neat, compact, cheap and durable.

Especially adapted to ironing Shirts and Skirts.

This is the most simply constructed article of the kind ever exhibited, and no family can afford to be without it, as the price alone recommends it to popular favor, to say nothing of its utility. The compactness with which it folds reduces the cost of shipment to a mere trifle, and should place a supply in the hands of every dealer in the country. Price each, \$1.15.

THE PERFECTION BENCH WRINGER.

ALWAYS WRINGS

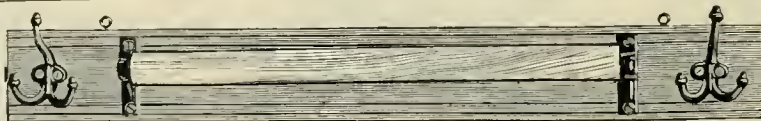

RIGHT HANDED.

The Only Perfect Bench Wringer Made.

Knowing the difficulties we have experienced in the use of Tub Wringers, in changing them from one tub to the other and the lifting of tubs, making it almost as laborious as wringing by hand, we obviate all of these difficulties by placing on the market our *new* Perfection Folding Bench Wringer with Reversible Water Table. It saves all lifting and changing of tubs, and furnishes a double Wash Bench, which, when not in use, folds up in less than six inches space. The trade will readily see that our combined machine will meet the wants of the public. It is made of hard wood, and is the best for the following reasons:

- | | |
|--|---|
| <ol style="list-style-type: none"> 1. The Machine has double steel bow springs. 2. The Rolls are Vulcanized on the shaft and White Rubber. 3. The Rolls never concave or get loose on the shaft. 4. The clothes can be reversed from either tub instantly. 5. The only Wringer that always wrings right-handed. | <ol style="list-style-type: none"> 8. The closest fold of any Bench Wringer made. 9. The operator can wring a handkerchief or a quilt without re-adjusting. 10. The extra long crank, without cogs, turns one-half easier than geared machines. 11. The wringing can be done from one tub to the other without changing. 12. The tubs are not liable to be injured or upset. 13. The Model of Convenience—THE PERFECTION. |

Parlor Cylinder Desk.

This new Desk is finished in the natural color of the wood. It is large enough for use as a lady's desk, being four feet four inches high, two feet two inches long, and eighteen inches wide when closed. When the table is drawn out (not shown in cut) it measures two feet and two inches wide, leaving a very large writing table. The pigeon holes are nine inches wide, with drawer eight and a half by eight and a fourth inches, and two inches deep. There is a drawer under the desk sixteen by twenty-two inches; a shelf is near the floor, as shown, eight inches wide. These pack very closely, as the lower and upper parts knock down for that purpose.
